Nicolás Correa

SOFTWARE DEVELOPER ADVANCED SYSTEMS ENGINEER STUDENT

ABOUT ME

I am an advanced Systems Engineering student, highly motivated to take on new challenges. I am passionate about software development, and my advanced knowledge of Linux has sparked my interest in infrastructure and DevOps

JOB EXPERIENCES

Software Developer

AGUAS Y SANEAMIENTO MENDOZA (AYSAM)
NOVEMBER 2025 - PRESENT

Currently building robust full-stack solutions within the Oracle Ecosystem, leveraging PL/SQL and Oracle APEX. Responsible for designing and implementing secure RESTful APIs and microservices for production environments.

IT Intern

CAJA FORENSE DE MENDOZA
JULY 2025 - SEPTEMBER 2025

Supported IT operations in a systems office, focusing on server administration and virtualized infrastructure using Proxmox VE, alongside general user support and network management.

Software Web Developer

FREELANCER
DECEMBER 2024 - MARCH 2025

Developed full-stack web applications for independent clients covering frontend and backend development

Back-end Developer

QAIZEN
FEBRUARY 2023 - JUNE 2023

Developed the core backend logic for a web application focused on bullying prevention and reporting. Designed, implemented, and managed the database architecture.

EDUCATION

Information Systems Engineering

UNIVERSIDAD TECNOLÓGICA NACIONAL (FRM) - UTN
MARCH 2022 - PRESENT
37/42 SUBJECTS COMPLETED

Web Developer - Full Stack

EGG EDUCACIÓN | SCHOLARSHIP | 500HS
OCTOBER 2021 - OCTOBER 2022

B2 Level English

INSTITUTO CULTURAL DE MENDOZA - ACCREDITED BY DGE
2018 - 2024

TECHNICAL PROJECTS

Self-hosted server

PERSONAL PROJECT
FEBRUARY 2026 - PRESENT

Maintained a self-hosted server running multiple services via Docker, accessible remotely through Tailscale (WireGuard) and Cloudflare.

Security Laboratory, UTN (LabAuSegTic)

FACULTAD REGIONAL MENDOZA (FRM) - UTN
2024 - 2025

Exploited Linux server and web platform vulnerabilities in controlled environments using techniques such as XSS, SQLi, LFI, and CSRF, supported by ethical hacking tools.
